

PALMIER

A new typeface designed by British type designer Philip Kelly.

There is an extensive character count and you can set in the French, German and Spanish languages.

(from Wikipedia)

“A palmier (French, ‘palm tree’), pig’s ear or elephant ear is a French pastry in a palm leaf shape or a butterfly shape, sometimes called palm leaves, cœur de France, French hearts, shoe-soles, or glasses.

Palmiers are made from puff pastry, a laminated dough similar to the dough used for croissant, but without yeast. Puff pastry is made with alternating layers of dough and butter, rolled and folded over to create possibly hundreds of flaky layers. The puff pastry is rolled out, coated with sugar, and then the two sides are rolled up together so that they meet in the middle, making a roll that is then cut into about 1/4 in (6 mm) slices and baked. Usually it is rolled in sugar before baking.

In the Puerto Rican version, it is topped with honey. In Mexico they are known as orejas (ears). In Chinese, they are known as butterfly pastries. In Greek they are usually known as little glasses . Germans call them pig’s ears (Schweineohren) while the Swiss call them Prussiens. In Catalonia and Valencia they are called ulleres (eyeglasses) or palmeras. In Spain they are called palmeras (palm trees), and they can be topped with coconut or chocolate.”

PALMIER

A French pastry in a palm leaf shape

A typeface developed by British type designer Philip Kelly

www.pkfont.co.uk

pkdigital@pkfont.co.uk

the typeface includes curly forms that will bring your headlines to life. However, care was taken to avoid too many decorative curls in favour of legibility

Palmiers are made from puff pastry, a laminated dough similar to the dough used for croissants, but without yeast

Also set your type in French, German & Spanish languages

In Catalonia and Valencia Palmier are called ulleres (eyeglasses) or palmeras. In Spain they are called palmeras (palm trees), and they can be topped with coconut or chocolate

Germans call them pig's ears
and the Swiss call them
Prussiens

Although Palmier was never intended for text usage, I was pleasantly surprised that it still reads quite well at small sizes. Please see below:

Restrictions

You may install and use this font software for the purpose of reproducing typeface designs. You may take a copy of the font software to a commercial printer or service bureau for printing your documents only if the printer or service bureau has purchased a license to use that particular font software (documents with embedded fonts see Embedding). You may not sell, rent, lease, sublicense, give, lend, or further distribute the font software or any copy thereof. You agree that you will not distribute any part of the software through any online service, on the Internet, CD-ROM or DVD. These require the purchase of a Special License. The Font Software may not be installed or used on a server that can be accessed via the Internet or other external network system (a system other than a LAN) by Workstations, which are not part of a licensed area. Fonts used with a server based application require a Special License Extension for Servers. If your printed publications contain an imprint, the names of the font and the foundry have to be mentioned, e.g. 'Type set in "Font Name" from Philip Kelly Digital Design'.
